# Confident care starts with the complete picture

# For more than 40 years,

hospitals have been turning to Haemonetics to help reduce the risk, complications and costs associated with blood product transfusions.

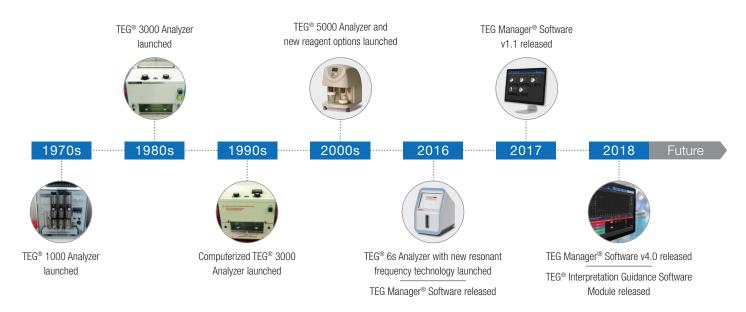

The market and clinical applications for viscoelastic hemostasis assessment were pioneered by Haemonetics, and we continue to invest in clinical research and technology to advance the science of hemostasis management.

# Evidence-based value Customer and patient focused

Scientific literature shows that the use of TEG<sup>®</sup> technology\* can help clinicians improve patient outcomes, reduce patient risks and lower costs. Our Scientific Advisory Council members covering Trauma/Critical Care, Cardiac Surgery, Anesthesiology, Cardiology, Transfusion Medicine and Hematopathology help guide product development and clinical research initiatives.

# A legacy of innovation, a vision and passion for what's possible

### System Implementation

### **Operational Training**

### System Implementation

Comprehensive, coordinated and efficient processes and tools to help ensure seamless system integration.

- Implementation Project Management
- On-site Operator Training
- System and Assay Validation Support
- IQCP Development
- Policy and Procedure Development
- On-site Clinical Go-live Support

# Delivering unsurpassed value beyond the technology

### Clinical Education & Best Practice Sharing

Market leading clinical education and support to optimize learning and clinical application.

- Experienced, dedicated Clinical Specialists
- College of TEG<sup>®</sup> Self-guided Online Clinical Training Modules
- Clinical Quick Reference Guides (QRGs)
- Interpretation Guidance Software Module
- TEG Education App
- DocMatter Peer Collaboration Forum
- Clinician Expert Education Programs
- Medical Affairs Department

Clinical Education & Best Practice Sharing Technical Product Support & Service

## **Operational Training**

Point-of-use training and educational materials to maximize consistency and operational efficiency.

- Device and Software Quick Reference Guides (QRGs)
- On-site Operator Training Programs
- College of TEG<sup>®</sup> Self-guided Online Operational Training Modules
- 24/7 Clinical Specialist Hotline

### Technical Product Support & Service

Technical product support and service to help reduce downtime.

- Dedicated Technical Support Hotline
- On-site Preventative Maintenance and Emergency Service

When your goal is personalized, effective care for each patient, trust our TEG<sup>®</sup> Hemostasis Management Solutions to deliver the complete picture.
